Tom

Thank you for the draft letter. I approve it with one minor adjustment. It is a trivial item, but as written it might imply all members have a comment attached, and the revised wording states slightly more accurately that what is attached is what was provided.

I appreciate your efforts on this matter.

Ivan

Ivan,

Attached is a letter transmitting to EPA the comments of CASAC NOx/SOx panel members on the Agency's Risk Exposure Assessment (REA) Planning Document. Please send me a reply indicating your approval to transmit the letter and enclosed individual comments from panel members to the EPA Administrator. As indicated in the letter, this was a consultation and a consensus report is not being provided to EPA because no consensus advice is given. If possible, I would like to receive your approval of the letter by next Wednesday (October 31st).

Individual comments from 14 panel members are included in the enclosure. Drs. Howarth, Schwartz, and Weathers did not attend the panel meeting on September 5-6 and did not provide comments. Dr. Boyer provided oral comments at the meeting but has not sent written comments. I will let her know that we will include her individual comments if we receive them by COB next Tuesday (October 30th).

Thanks very much,

Tom
